

**Futurist Mike Walsh reveals the 10 principles every leader needs to know to survive and thrive in the algorithmic age**

# THE ALGORITHMIC LEADER

**Format** Hardcover with dust jacket

**Trim size** 6" x 9"

**Regular retail price** \$25.00 USD

**W**e live in an age of wonder: cars that drive themselves, devices that anticipate our needs, and robots capable of everything from advanced manufacturing to complex surgery. Automation, algorithms, and AI will transform every facet of daily life, but are we prepared for what that means for the future of work, leadership, and creativity?

Futurist and global nomad Mike Walsh has synthesized years of research and interviews with some of the world's top business leaders, AI pioneers, and data scientists into a set of 10 principles about what it takes to succeed in the algorithmic age. *The Algorithmic Leader* offers a hopeful and practical guide for leaders of all types, and organizations of all sizes, to survive and thrive in this era of unprecedented change.

**"Great companies are built on culture. Walsh's prescient vision of the algorithmic company of the future is no robot army of soulless analytics dashboards, but a living, breathing organism—a community of humans who respond to motivation beyond compensation; purpose and impact; decision making and autonomy; location and collaboration. A worthy read."**
